**Subject:** Meeting....

Hi Rob,

Thanks for sending the preliminary draft interim Conceptual Site Model on December 20<sup>th</sup>.

We understand that the CPG would like to meet with us during the week of January 20<sup>th</sup> to go over the model. If you would like to provide an overview presentation of the CSM to us and the partner agencies that week, then we can likely be available. However, we will not have had a chance yet to review your submission and will not be able to discuss the contents by the week of the 20<sup>th</sup>.

Please note that, as requested, we have not shared the document with the PAs. However, upon reflection and a brief skimming of the document, we are not clear as to why you are concerned about sharing it with them. They are part of this process; keeping them out of the information exchange now until an unknown later date will only delay completion of the process.

We discussed internally the monthly technical meetings we are tentatively planning having to move the RI/FS towards completion, and think the PAs should participate in these meetings. Since the CSM will form a starting point for these discussions, they need to be as informed as we are.

Finally, we noted that your letter submitting the model code and inputs also asked that this information not be shared with the PAs. This was not previously discussed and we do not understand your concern with sharing this information either.

Please let me know how the group would like to proceed.

Thanks,

Stephanie
